

# NEC CODE UPDATE

## CHAPTERS 1-4

**6**  
CEUs

**TUESDAY, NOVEMBER 21, 2023 | 10 A.M. – 4 P.M.**

Van Meter Inc. | 2200 Hwy 71 N, Carroll, Iowa

Lunch will be provided.

Join representatives from Van Meter and ABC of Iowa for Social Hour following training from 4 – 6 p.m.

### COURSE PURPOSE

This course explores major changes in the 2023 NEC® related to residential, commercial and industrial sectors. Not all changes will be covered due to time constraints. This course is approved for six code hours of continuing education credits approved by the Iowa Electrical Examining Board.

### COURSE SYLLABUS

- Article 90 through Chapter 1 changes
- Article 230 and 240: Arc energy reduction requirements
- Article 300 through 310: General wiring requirements and conductors
- Chapter 3: Cables and raceways
- Chapter 4: Switches and industrial control panel, motor, MCC and generator requirements
- Chapters 5-8: Brief discussion on changes

### COST

\$100 per student

### WHO SHOULD ATTEND?

Practicing electricians who want to stay up to date with electrical code changes.

### STUDENT MATERIALS

Students should bring a 2023 NEC Codebook.
