

# PRICE ELECTRIC

## LINN-MAR BOULDER PEAK INTERMEDIATE MARION, IA

Commercial: Electrical | (\$1 Million - \$5 Million)

**Size of Project:**  
90,433 sq ft

**Length of Project:**  
6 Months

### TYPE OF CONSTRUCTION

As Linn Mar School District built two new schools in 2019, both were built with primarily union contractors, with Price Electric being the major merit shop outlier. The Price team worked through the pandemic, historic Derecho windstorm and completed the project before winter set in with minimal interruption.

### BUILDING FEATURES

Price deployed their BIM Team to coordinate all the work between MEP trades on site. Additionally, they showcased innovative practices when they utilized temporary stock lighting for customized lighting delayed due to the pandemic, multiple material clam shells to ensure efficient material installation, and BIM in a box was utilized to ensure accurate installation from preplanning.
