

K & W ELECTRIC, INC.

NORTH STAR COMMUNITY CREDIT UNION

CHEROKEE, IA

Commercial: Electrical | (\$250,000 - \$1 Million)

Size of Project:
14,082 sq ft

Length of Project:
20 Months

TYPE OF CONSTRUCTION

K & W Electric, Inc. provided electrical and lighting for the North Star Community Credit Union, located in Cherokee, Iowa. K&W installed the low voltage and 120/208 three-phase voltage for this project.

BUILDING FEATURES

As an expansion of their banking services, North Star Community Credit Union enlisted the expertise at K & W Electric with their project. The K & W team excavated and poured the transformer pad to set up the building for its 600 amp service. Overall, they supplied and installed: lighting controls, light pole bases, conduit and wire, fire alarm, underground conduit as well as interior and exterior lighting.
